CREATING SPACES THAT FEEL LIKE HOME –
BY TANJA LUND

SCANDINAVIAN ELEGANCE MEETS
MEDITERRANEAN SOUL

About Me

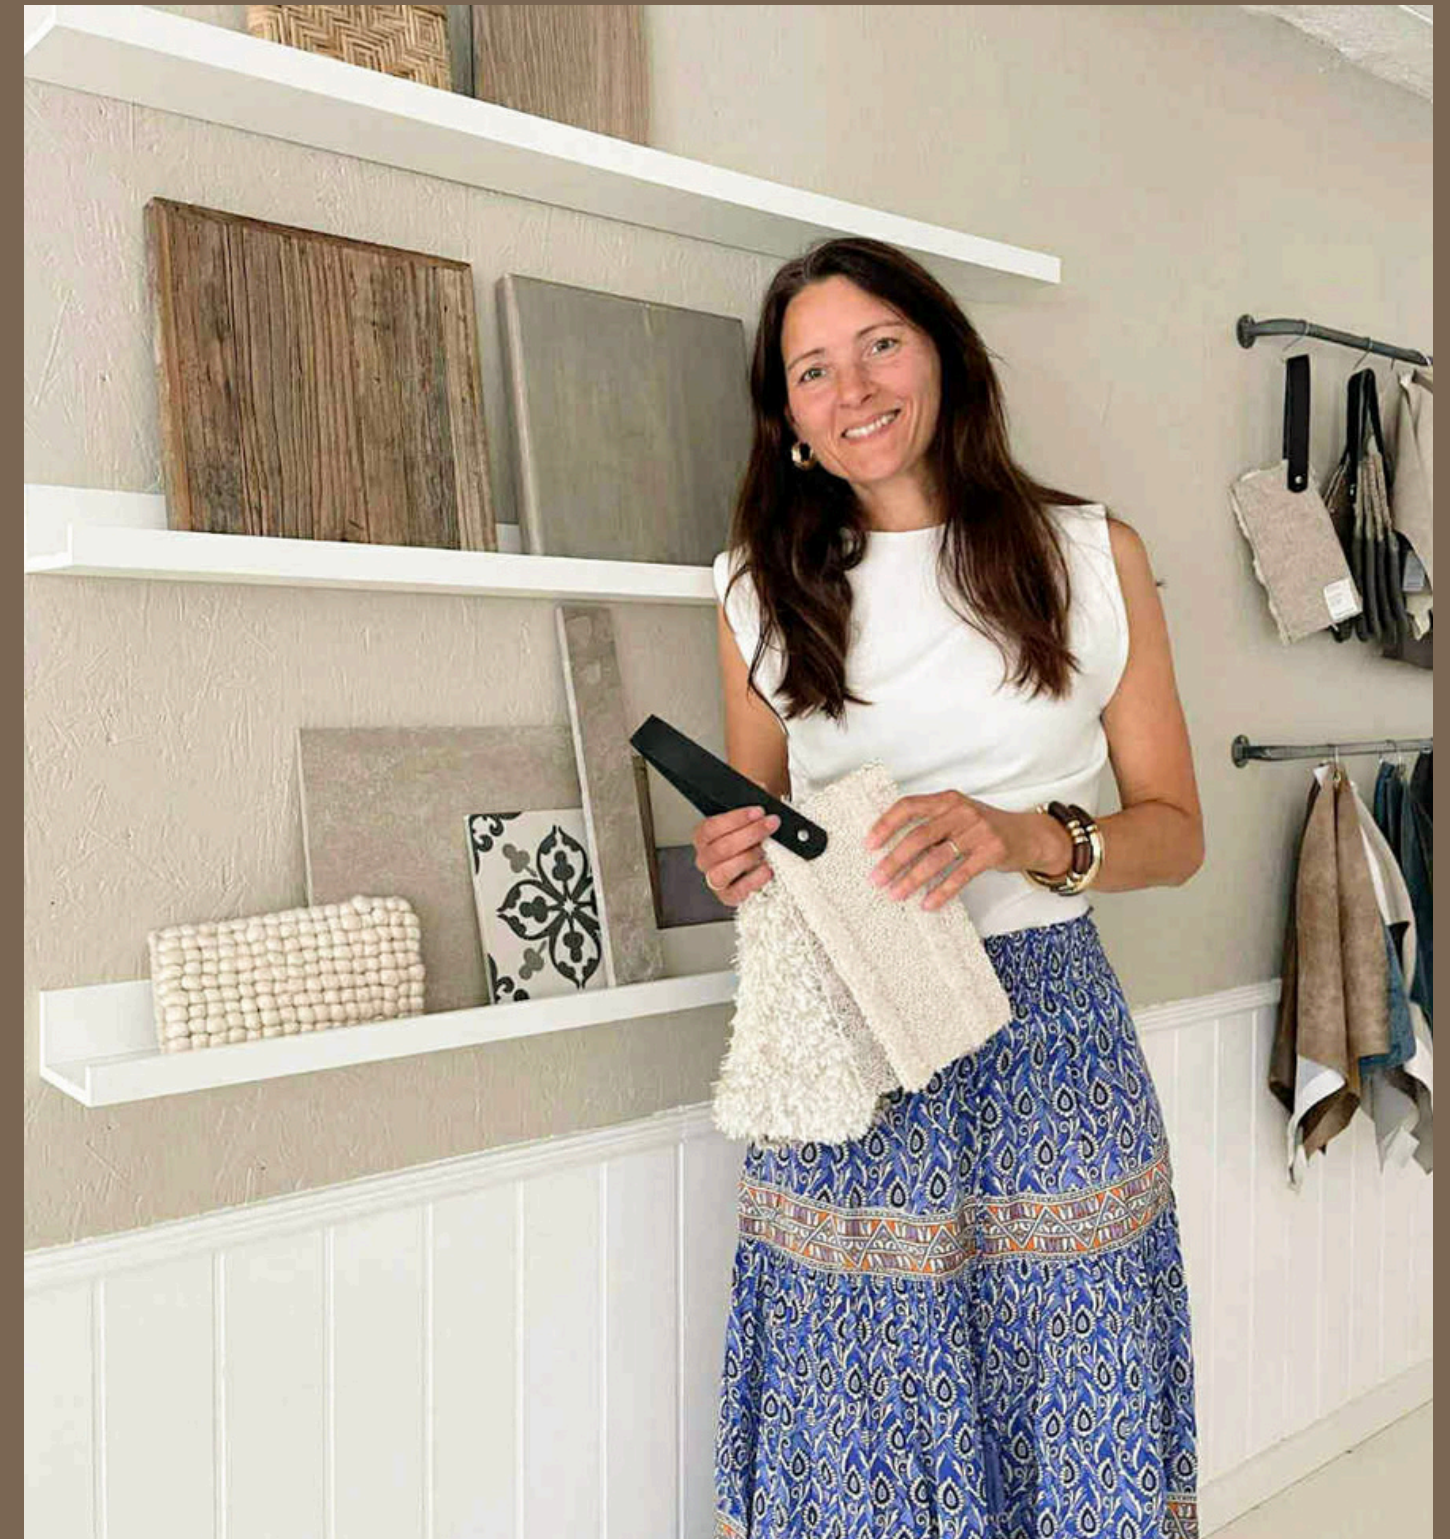

I'm Tanja Lund, an Interior Designer, Home Stylist and Educator from Denmark with more than 20 years of experience in the world of design and creative styling.

Throughout my career, I've created timeless interiors for private homes, hotels, restaurants and lifestyle brands — always with a focus on atmosphere, harmony and visual storytelling.

My work is rooted in Scandinavian elegance blended with warm Mediterranean charm, using natural textures, soft tones and thoughtful details that make every space feel luxurious yet inviting.

Through my company Rosen-lund, I design full interiors, offer styling for real estate and events, and teach creative professionals how to turn their passion for design into a thriving business.

Now, I'm bringing my Scandinavian aesthetic to Spain — collaborating with real estate agents, boutique owners and developers to create interiors that inspire and sell.

MARIENLYST STRANDHOTEL | HELSINGØR

Marienlyst Strandhotel – Coastal Luxury Redefined

At Marienlyst Strandhotel, I was part of creating an atmosphere where Scandinavian elegance meets coastal serenity.

The goal was to design interiors that reflected the hotel's seaside heritage while adding a touch of modern luxury and warmth.

Natural materials such as oak wood, linen and rattan were combined with soft neutral tones and tactile textures to evoke calmness and sophistication.

Each room and lounge area was styled to make guests feel at home — surrounded by understated beauty and timeless comfort.

The result was an interior that not only captured the essence of Nordic seaside living, but also enhanced the guest experience through light, balance and emotional connection.

How I Work

Every project begins with a deep understanding of the surroundings, the client's needs, and the architecture of the space.

I believe that great design is not about following trends, but about creating harmony between people and their environment.

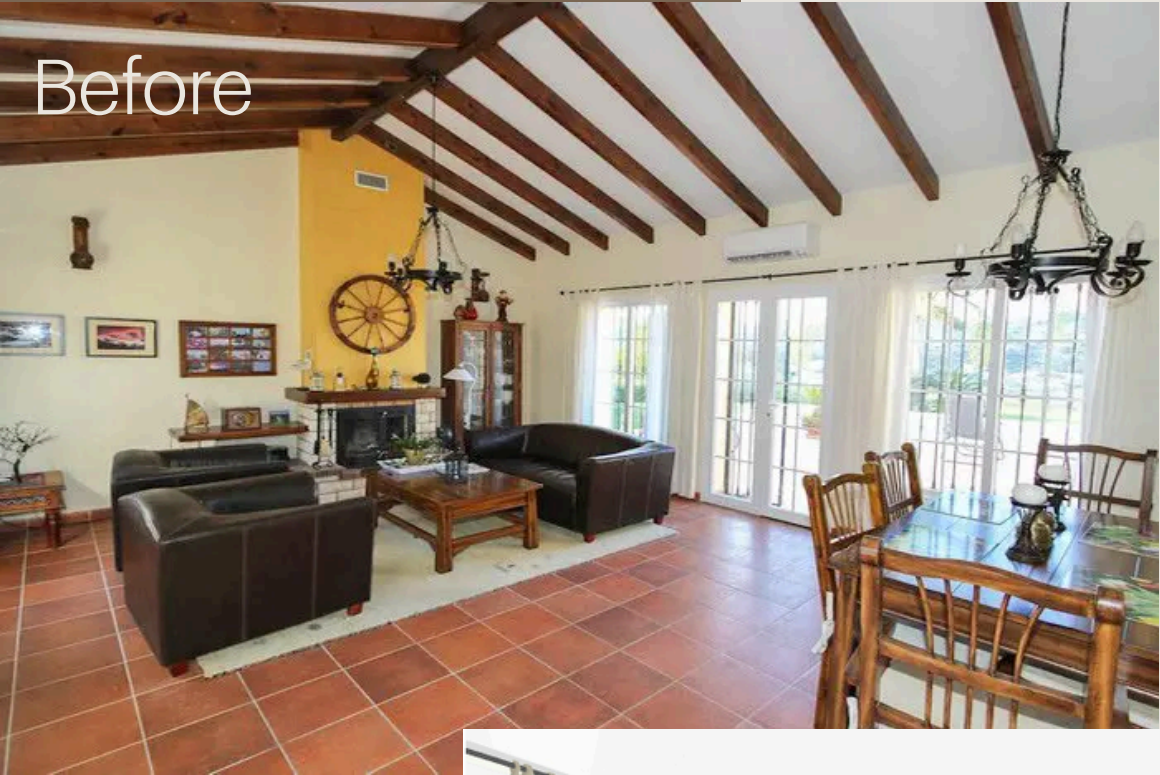

When I design a home, a boutique or a hotel, I take time to sense the atmosphere — the light, the materials, the story behind the place.

From there, I develop a concept that enhances the natural beauty of the architecture while reflecting the personality and lifestyle of the client.

Textures, colours and proportions are carefully selected to create balance and emotional connection — ensuring that every space feels both functional and inspiring.

"My goal is to design interiors that tell a story, feel effortless, and bring beauty and calm into everyday life."

Spanish Holiday Home – Coastal Living with Nordic Elegance

This project shows a warm and timeless interior created for a holiday home in Spain. The design combines Scandinavian calmness with Mediterranean charm, using natural materials, soft tones and elegant textures to bring light and harmony into the space. For the past eight years, I've collaborated with a Dutch interior brand, curating furniture and décor through my Danish design store. This partnership allows me to bring exclusive furniture and interior collections directly from Denmark to Spain – creating homes that feel both luxurious and inviting.

Presentations are communication tools that can be used as demonstrations, lectures, speeches, reports, and more.

“LET’S CREATE SOMETHING BEAUTIFUL TOGETHER.”

“I’m open to collaborations, partnerships and creative projects in Spain.”
